

Oscar Bears' Day Care

Special education needs and disabilities (SEND) Policy

SENCo: Tawny Bremner

Introduction

At Oscar Bears Day Care an environment is provided in which all children, including those with special educational needs, are supported to reach their full potential.

This policy must be read aside the DFES special educational needs code of practice (2001).

<https://www.gov.uk/government/publications/send-code-of-practice-0-to-25>

The provision is inclusive to all children with special educational needs.

Parents and children with special educational needs (SEN) are supported.

Oscar Bears' works in partnership with parents and other agencies in meeting individual children's needs.

The specific needs of children with special educational needs are identified and met through a range of strategies.

Policy, practice and provision are monitored and reviewed and if necessary adjustments are made.

These procedures are written in line with current guidance Early Years Foundation stage (EYFS).

The nursery manager and SENDCo are responsible for ensuring all staff understand and follow these procedures.

Implementation and Partnership with Parents

Tawny Bremner is the designated special educational needs and disabilities coordinator (SENCo). SEND courses are available for all staff to further their understanding on our online training portal; Noodle Now.

The provision for children with special educational needs is the responsibility of all members of the nursery.

We are committed to working in partnership with parents in order to meet each child's individual needs and develop to their full potential. We are committed to working with any child who has a special educational need and/or disability and making reasonable adjustments to enable every child to make full use of the nursery's facilities. All children have a right to a broad and well-balanced early learning environment.

Parents of children with special educational needs are closely worked with to create and maintain a positive partnership.

Parents are informed at all stages of the assessment, planning provision and review of their children's education.

Parents are provided with information on sources of independent advice and support.

Professional are liaised with when involved with children with special educational needs and their families, including transfer arrangements to other nurseries and schools.

Oscar Bears' Day Care

A broad, balanced and differentiated curriculum is provided for all children with special educational needs and disabilities.

There is a system of planning, implementing, monitoring, evaluating and reviewing individual educational plans (IEPS) for children with special educational needs and disabilities.

Progress Checks and Summative Assessments

We undertake a Progress Check of all children at age two in accordance with the Code of Practice (2015) and statutory framework for the EYFS to support early identification of needs.

We will also undertake an assessment at the end of the Early Years Foundation Stage for any children that remain with us in the final term of the year in which they turn five, as per the statutory framework for the EYFS.

We will work closely with the child's parents and any relevant professionals if we identify any areas where a child's progress is less than expected to establish if any additional action is required. This may include:

- Liaising with any professional agencies
- Reading any reports that have been prepared
- Attending any review meetings with the local authority and other professionals
- Observing each child's development and assessing such observations regularly to monitor progress

All new children will be given a full settling in period when joining the nursery according to their individual needs.

We will:

- Recognise each child's individual needs and ensure all staff are aware of, and have regard for, the Special Educational Needs Code of Practice (2015)
- Ensure that all children are treated as individuals and are supported to take part in every aspect of the nursery day according to their individual needs and abilities
- Include all children and their families in our provision
- Identify the specific needs of children with special educational needs and/or disabilities and meet those needs through a range of strategies
- Encourage children to value and respect others
- Provide well informed and suitably trained practitioners to help support parents and children with special educational difficulties and/or disabilities
- Develop and maintain a core team of staff who are experienced in the care of children with additional needs and identify a Special Educational Needs and Disabilities Co-ordinator (SENCo) who is experienced in the care and assessment of children with additional needs.
- Staff will be provided with specific training relating to SEND and the SEND Code of Practice where required

Oscar Bears' Day Care

- Monitor and review our practice and provision and, if necessary, make adjustments, and seek specialist equipment and services where required
- Challenge inappropriate attitudes and practices
- Promote positive images and role models during play experiences of those with additional needs wherever possible
- Celebrate diversity in all aspects of play and learning
- Work in partnership with parents and other agencies in order to meet individual children's needs, including the education, health and care authorities, and seek advice, support and training where required
- Share any statutory and other assessments made by the nursery with parents and support parents in seeking any help they or the child may need.

Graduated response approach
SEND Code of Practice (2015)

Good practice of working together with parents, and the observation and monitoring of children's individual progress, will help identify any child with special educational needs or disability. This graduated approach will be led and coordinated by our SENCO and appropriate records will be kept according to the Code of Practice.

Assess

In identifying a child as needing SEND support, the key person, working with the SENCO and the child's parents, will carry out an analysis of the child's needs. This initial assessment will be reviewed regularly to ensure that the support is matched to the need. Where there is little or no improvement in the child's progress, more specialist assessment may be called for from specialist teachers or from health, social services or other agencies beyond the setting. Where professionals are not already working with the setting, the SENCO will contact them, with the parents' agreement.

Plan

Where it is decided to provide SEND support, and having formally notified the parents, the key person and the SENCO, in consultation with the parents, will agree the outcomes they are seeking, the interventions and support to be put in place, the expected impact on progress, development or behaviour, and a clear date for review. Plans will take into account the views of the child.

The support and intervention provided will be selected to meet the outcomes identified for the child, based on reliable evidence of effectiveness, and provided by practitioners with relevant skills and knowledge. Any related staff development needs are identified and addressed. Parents will be involved in planning support and, where appropriate, in reinforcing the provision or contributing to progress at home.

Do

Oscar Bears' Day Care

The child's key person will be responsible for working with the child on a daily basis. With support from the SENCO, they will oversee the implementation of the intervention agreed as part of SEN support. The SENCO will support the key person in assessing the child's response to the action taken, in problem solving and advising on the effective implementation of support.

Review

The effectiveness of the support and its impact on the child's progress will be reviewed in line with the agreed date. The impact and quality of the support will be evaluated by the key person and the SENCO in full consultation with the child's parents and taking into account the child's views. Information will be shared with parents about the impact of the support provided.

Education and Health Care Plan (EHCP)

Some children and young people may require an EHC needs assessment in order to decide whether it is necessary to develop an EHC plan. The purpose of an EHC plan is to make adjustments and offer support to meet the special educational needs of the child, to secure the best possible outcomes for them across education, health and social care.

The local authority will conduct the EHC needs assessment and take into account a wide range of evidence, including:

- Evidence of the child's developmental milestones and rate of progress
- Information about the nature, extent and context of the child's SEND
- Evidence of the action already being taken by us as the early years provider to meet the child's SEND needs
- Evidence that, where progress has been made, it has only been as the result of much additional intervention and support over and above that which is usually provided
- Evidence of the child's physical, emotional and social development and health needs, drawing on relevant evidence from clinicians and other health professionals and what has been done to meet these by other agencies.

We will then work with the local authority and other agencies to ensure that the child receives the support they need to gain the best outcomes.

We will review this policy annually to ensure it continues to meet the needs of the children, parents and our nursery.
